PERFORMANCE

THE SUCCESSFUL BRAND

for tyres and wheels

Since 1987 PLATIN has stood for fascinating wheel designs and innovative tyre technology with an outstanding price-performance ratio.

The wide range of unique PLATIN wheels with alloy wheels from 14 to 20 inches in more than 30 different designs leave just about nothing more to be desired. All PLATIN wheels are TÜV-tested and have TÜV certification and a corresponding ABE. PLATIN quality tyres round out the range with summer, all-weather and winter tyres for cars, vans and light trucks in more than a hundred current sizes.

PLATIN tyres are developed on the basis of the very latest tread mix and profile technology and manufactured in modern production plants by leading tyre makers.

Discover the whole world of PLATIN wheels and tyres on platin-wheels.com

Subject to alterations.

RP 320 SUMMER

- Better grip and improved handling on dry roads due to the asymmetrically arranged profile blocks
- Increased resistance to aquaplaning and improved grip in the wet thanks to the broad middle grooves and a narrow groove next to the outer shoulder
- Optimal braking performance and improved handling through the use of sipes with multiple angles in the profile shoulders

RP 420 SUMMER

- High reserves of safety in the wet thanks to the circumferential drainage grooves and hydrodynamically-shaped transverse grooves in the shoulder area
- Superlative braking and better performance on wet roads through curved sipes in the inner and outer shoulders
- Reduced rolling resistance and better braking behaviour in the wet with a high proportion of silica and new polymers

RP 510 VAN

- Optimized aquaplaning safety
- Reduced braking distance on wet roads
- Safe handling
- Very good braking performance
- High performance in the dry
- Increased comfort and low level of noise
- High economy through a longer life

Subject to alterations.

RP 100 ALLSEASON

- Broad tread area for optimised handling and more traction
- Reduced risk of aquaplaning thanks to broad transverse grooves in the shoulder area and the quick removal of water due to the higher negative proportion
- Modern silica tread mix for reduced rolling resistance and excellent wet-grip
- High level of economy and savings of fuel in the interests of the environment
- Can be used without restriction all year round, with M+S and snowflake symbol (in accordance with section 2 para. 3a of the German StVO traffic regulations)

Cars all-weather

RP 700 VAN ALLSEASON

- Good resistance to aquaplaning and short braking paths on wet roads
- Improved grip on snow
- Strong braking performance on snow-covered roads
- Good directional stability and safe cornering on dry, wet and snow-covered roads

FR = WEP Wheel edge protection | XL = Extra Load

*Fuel efficiency class / Wet grip class / External rolling noise class (value in dB) as per EU standard 1222/2009 - Vehicle class C1

**Fuel efficiency class / Wet grip class / External rolling noise class (value in dB) as per EU standard 1222/2009 - Vehicle class C2

Subject to alterations.

RP 60 WINTER

- Profile with fixed rolling direction
- Better handling, safe braking and optimum grip on snow-covered roads
- Low risk of aquaplaning
- Superlative handling on dry roads
- Safe braking on icy surfaces

RP 610 WINTER

- Excellent traction and good braking performance on snow and ice
- Short braking path in the wet and a low aquaplaning risk
- Increased level of riding comfort due to a low level of road noise
- High economy due to optimized running performance and low rolling resistance
